

# SMALA

Design by  
Pascal Mourgue

## Description

Smala is a practical settee with pure, clean lines which all but floats above the ground, inviting you to come up and relax.

## Technical Specifications

### STRUCTURE

Frame in rectangular tubular steel, with slatted suspension. Seat and back in high resilience polyurethane foam (38kg/m<sup>3</sup> - 3.2kPa). Feet in moulded polished aluminium, mounted on a tubular steel frame, finished in Epoxy aluminium lacquer.

### COMFORT

An ingenious system of articulation allows the two armrests to be positioned at any one of three levels; the two backrests may be similarly operated, meaning that the three-seater settee can be transformed into a chaise longue (one armrest raised and the two backrests lowered), or even a bed (sleep area: 230x130). A white cotton fitted sheet is available both to protect the seat and add a touch of luxury: this has slits to accommodate the armrests. The bed-settee (sleep area: 130x200) has a one-piece back, rendering the sleep area even more comfortable than before, and the seat is of a constant thickness throughout. This is supplied with a sheet as standard, and an optional mattress protector is also available to offer increased protection to the covering fabric. Although the cover is buttoned, the covers may still be removed as the buttons are
