ADRIEN —
VINCENT VAN DUYSEN 2018

Adrien expresses a desire to present a new series of storage units, conceptually avant-garde both in technological and in aesthetic terms. Adrien is a fortunate combination of purity of form and exclusive materials and technologies, blended harmoniously and with a focus on key visual and tactile aspects. This new system of storage units develops the concept of rigorous containers defined by absolute transparency.

FINISHES

- Cupboard available in three sizes with sides and doors in glass.
- The back can be made in the same finish as the sides or in fine grain or in wood.
- The internal parts are always in wood, and the top can be either in marble (th 2) or wood (th 3).
- The upper top panel is mandatory.
- The cupboard can be equipped with a lighting system.
- The LED bars can be inserted on the lid or on the shelves (in wood or glass).
- The cupboard can be used in the centre of the room only in the version with the glass back.

DIMENSIONS

Lighting system

Lighting bars with front LEDs

Internal compartments of Adrien can be equipped with front LED lighting bars. The lighting bar can be mounted on the lids or on the shelves in wood or transparent glass, using the electrified wire strip mounted on the left side panel of the compartment. For each compartment size, we have made specific lighting bars with wiring compliant with European safety standards.

Notes

When ordering, the client must indicate how many shelves with lighting bars are desired.
Individual wire strip is always installed on the left side panel of the compartment.
The lighting bars cannot be used in the presence of structures with drawer.
