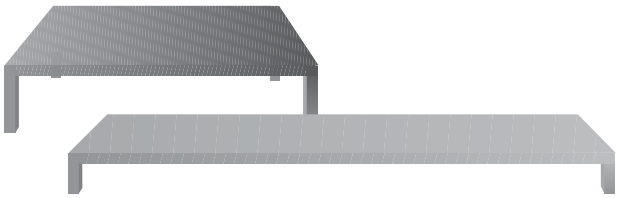
H 30 or 15

KERAMIK Bruno Fattorini



all dims

A family of coffee tables made with the same materials and in the same finishes of the Keramik tables .

Dims
The table sizes in cm are rounded to the cm above (+0.5 cm)
Rectangular tables in 12 size options and square tables in 5 size options. Height: 30 or 15 cm.
The maximum sizes in the price list are determined by production limitations.
Measurement tolerances: each side of the top is 1 mm smaller than the frame. Tolerances are +/-0,5 mm.

Special sizes
Custom-made tables require extra work, consequently additional costs and longer lead time if compared with standard pieces. For lead time, please contact our Sales Department

In case of **top size variation**, the price will be calculated on the basis of the next table measurement up from the size ordered plus 30%.

Outdoor use
The tables properly treated, are suitable for outdoor.
Any material left outside, even if properly treated, can have superficial molecular and colour changes during its lifetime. Of course, the amount of alterations is directly related to the amount of exposure to weather and to the geographical area (for ex., high humidity and/or salinity). This is particularly true with lacquered surfaces. The specific tests carried out on the Keramik tables have allowed to define a measurable limit on durability with no alterations. In particular, the corrosion resistance test has proven that no surface alterations are present in the first three years (test UNI ISO 9227/93 by Catas carried out in a chamber with saline fog and exposure time of 500 hours). Such limit is part of the Sales Conditions and it is up to the client whether to accept them or not.
Regular maintenance, for instance periodic cleaning with water, increase resistance to corrosion.
